

Capability Statement

We design and manufacture the Objekt, brand it, curate what goes inside and complete the presentation.

WHO WE ARE

Eight years of turning ideas into useful, beautiful Objekts

Creative Objekt began with a passion for transforming clear sheets of perspex into pieces with purpose. That passion has grown into a Johannesburg manufacturing and gifting business trusted with bespoke briefs across brands, events, recognition and gifting.

We have created countless custom pieces, from one-off commissions to repeat production. Each project begins with the same question:

What should this Objekt do, and how should it make the recipient feel?

WHAT WE DO

One creative partner for the product and its presentation

CUSTOM MANUFACTURING

Boxes, trays, caddies, organisers, awards, displays and bespoke structures.

UV PRINTING

Logos, detailed artwork and full colour printing directly onto the product.

CURATED GIFTING

Selected contents, personalisation, decorative finishing and thoughtful arrangement.

FINAL ASSEMBLY

Filled, packed and ready to present, distribute or gift.

FULLY CURATED GIFTING

From custom Objekt to complete gifting experience

We can manage the complete result.

The Objekt is manufactured around the purpose of the gift. We can then source the contents, personalise each piece, arrange the elements and complete the presentation.

CUSTOM MANUFACTURE

Curation · Personalisation · Final assembly

WHAT WE CAN CREATE

A capability broader than a fixed product catalogue

01 PRESENTATION & PACKAGING

Hinged boxes, display boxes, product presentation and reusable packaging

02 ORGANISATION

Caddies, desk organisers, beauty storage and hospitality organisers

03 GIFTING & ENTERTAINING

Trays, graze Objekts, keepsakes and fully curated gifting

04 RECOGNITION & DISPLAY

Awards, plaques, frames, signage and branded display pieces

05 BESPOKE DEVELOPMENT

Campaign pieces, event products and original builds developed around the brief

If a product can be developed realistically in perspex, we can help shape it.

THE CREATIVE OBJEKT DIFFERENCE

We manufacture the vessel as part of the experience

Many gifting suppliers begin with an existing box. We can develop the physical Objekt around the product, campaign, quantity and intended use.

This gives organisations greater freedom over size, compartments, function, print and presentation.

ONE PARTNER

Manufacturing, branding, curation and assembly can sit within one project.

BUILT AROUND THE BRIEF

The solution starts with the client's purpose rather than a standard catalogue item.

MADE TO REMAIN USEFUL

The Objekt continues carrying the brand after the initial contents are used.

HANDS-ON OVERSIGHT

We follow each project closely from discussion through final presentation.
